TO WHOM IT MAY CONCERN

Neffi Kristensen was a student at the European Film College during the academic year 2012-2013. During his stay he was an engaged, and committed student. He had an active participation in my courses, contributing with constructive observations and questions showing that he will do his best to perfect his knowledge and skills.

Very enthusiastic when it comes to putting into practice projects or ideas, he is a hard worker for whom the interests of the group, he is a part of, are far more important than his. When working in a group he can both carry out tasks given by others and take decisions of his own when necessary and appropriate.

Because of his qualities and skills Neffi has been a highly demanded person to collaborate with. The number of projects he has worked on is an indication of his value. He fulfilled all the tasks he had been given, co-operating with the other members of the group on very good terms and with good results. In the same time he carried out successfully all the tasks assigned to him by the school. During the period spent at school he individualized himself as a trustful and reliable person, always ready to help and collaborate.

It came to my knowledge that he is very committed to having a career in film making. Therefor I warmly recommend him to whom ever he may turn to for assistance in this matter. He has a lot of potential to become a fine film maker.

I am definitely convinced that he should be given the chance to study further in this field or to work in a professional film making environment. I am sure he can be a very good student and a reliable member of the "Camera Crew" in any film or video production.
