

**To whom it may concern:**

I have had the pleasure of working with Neffi on the short film called 'Zombiehagen', a short-film based in Copenhagen, Denmark. Neffi was the lighting technician for the film. The production took one week, and consisted of long days of outdoor shoots. Throughout the week, Neffi worked with the lighting crew, coordinating the with director and camera crew.

He was calm and composed under extreme conditions and tense situations. He was focused and technically well versed. The responsibility of maintaining and storing the lighting equipment for the film was also given to Neffi, which he carried out efficiently. One of Neffi's key skills is organization which enables him to easily adapt to the crew and conditions.

I definitely recommend Neffi Kristensen for your lighting department and it will be a great advantage to have him as a part of the crew.

Sincerely  
Anee Jayaraj
